To Host Clubs of Access UK Traveller Events

Thank you very much for agreeing to run an Access UK Traveller event for us. This is very much appreciated by both the ACA(UK) committee and the members.

In order to assist you in staging the Access Traveller event this year we have put together this "**Traveller Trophy Race Events Information and Resource Pack 2012**" which we believe contains all the information your club needs to run a successful event this year.

Please use this 2012 Traveller Trophy Race Events Information and Resource Pack as many of the documents (including the "Sailing Instructions" and "Special Rules") have changed this year. (Also many of the documents are different than the Traveller Trophy versions)

There are a few very important changes this year so **please read carefully the "Summary of Main Changes"** to familiarise yourself with how these changes affect the running of your event. **I bring your attention particularly to items 3, 4 and 5 which are important safety points that need your attention**

During our many racing events we sometimes experienced problems that could have easily been avoided with forethought and good joined up management particularly in the Area of event planning. **I have been asked by the Sailors and their teams to work with host clubs to improve the continuity of standards** throughout the years racing events. **To this end I have included in this pack a document entitled "Quick Planning Guide"** This will take you step by step through the Planning and Management of your event starting from the day you receive this pack. **So please turn straight to the "Quick Planning Guide" (included in this pack) and proceed from there.**

Many thanks for all your clubs enthusiasm, effort and support in hosting one of this years Access Traveller events. This is very much appreciated.

With best wishes

Ron Sawford 07710 527536
